Stanley Hardman Post 11, Trinidad, Colorado

Lazy Y D Bar Ranch would like to invite you, as part of the military community, to come visit the Ranch and experience our facilities and meet the horses participating in the proposed equine Veteran therapy program.

We have a unique location in that it is close to town (less than 10 minutes), is extremely restful and quiet as well as away from traffic, buildings and large groups of people. The views of Fishers Peak are spectacular. Simply watching the ever-changing cloudscape is mesmerizing. The wind in the cottonwoods brings a unique peace all its own.

We at the Ranch deeply appreciate your continued interest in and assistance with the establishment of an equine therapy program in this area. Our veterans will benefit greatly from the contact with and forming bonds with these beautiful creatures who will become close friends and confidants.
